SUBJECT INDEX

Acceptability of
  apple juice drink 763
  apple rings 565
  canned fish pâté 361
  meat from electrically stimulated carcasses 639
  white fish 75
Acceptance sampling plans 143
Acidification of beans for storage 797
Aflatoxin in mushroom compost 335
Air-drying of beans 507
Albumen, egg, heat denaturation of 11
Ammonium content of collagenous films 529
Amylolytic activity in luncheon meat 295
Amylose—See Starch
Anthocyanins of sunflower, extraction of 629
Apple, juice drink,
  acceptability of 763
  processed, acceptability of 565
  sliced, selection of cultivars for 697
Aqueous extraction of lupin seed 327
Aspergillus flavus in mushroom compost 335
Avocado maturity and oil content 401
a_w—See also Sorption isotherms 739
  effect on dissociation of sorbic acid 789

Bacillus cereus phospholipase, effect on milk fat 495
Bacterial flora of vacuum-packed
  Bologna sausage 371
  whole meat 573
Bacterial numbers
  and diamine in meat 777
  estimation 801
Bananas,
  finger drop in 241
  freeze-dried, hygroscopicity of 687
Beans, green, colour during storage 797
Beans, thin-layer air drying of 507
Binding properties of fish flesh 441
Blanching of carrot, solute losses during 427
Blood plasma proteins, separation and characterization 747
Bologna sausage, effect of nitrite on microflora of 371
Bonavist bean, starch of 1
Bonito tuna, muscle colour deterioration in 387

Book Reviews,
Advances in Biotechnology 657
Canned Foods 533
Chemistry of Foods and Beverages: Recent Developments 806
Colloids in Food 810
Copper in Biology and Medicine 661
Dairy Facts and Figures 1981 394
Developments in Food Proteins. Vol. 1 398
Developments in Meat Science Vol. 2 141
Effects of Low Temperature on Biological Membranes 396
Fermented Foods 658
Flavor Researches: Recent Advances 257
Food Composition and Nutrition Tables, 1981/82 136
Food Drying 805
Food Proteins 808
Food Science: A Chemical Approach 660
Fragrance Chemistry 807
Handbook of Carcinogens and Hazardous Substances 805
Human Nutrition Research 258
Introduction to Bacteria for Students in the Biological Sciences 535
Kaffee 256
Malting and Brewing Science. Vol. 1. Malt and Sweet Wort 137
Manual of Recommended Methods for the Microbiological Examination of Poultry and Poultry Products 536
Mixed Culture Fermentations 259
Nutrition and Killer Diseases 659
Nutrition Policy Implementation 811
Nutritive Sweeteners 393
Pearson's Chemical Analysis of Foods 139
Preventive Nutrition and Society 255
Principles and Practice of Disinfection, Preservation and Sterilization 663
Recent Advances in the Biochemistry of Fruit and Vegetables 135
Techniques in Visible and Ultra-violet Spectrometry. Vol. 2. Standards in Fluorescence Spectrometry 140
The Problem of Dark-cutting in Beef 395
Thermal Properties of Foods and Agricultural Materials 534
Trends in Fish Utilization 260
Vitamin C 537
Brochothrix thermosphacta in nitrite-containing vacuum-packed meats 371, 573

Cadaverine in meat 777
Cajanus cajan—See Pigeon pea
Cans, external corrosion of 285
Canned fish pâté, acceptability of 361

Carbonated soft drinks, shelf life of 227
Carcasses, electrical stimulation of 639
Carica papaya—See Papaya
Carotenoids, stability in freeze-dried papaya 177
Carrots,
  blanching of, solute losses during 427
  dehydration of 113
Cassava, cohesiveness of 265
Cetylpyridinium chloride to protect albumen against denaturation 11
Cheese, from recombined milk 711
Chick pea, starch of 1
Chromatographic separation of blood proteins 747
Cicer arietinum—See Chickpea
Coconut, protein hydrolysate from 21, 163
Cocos nucifera—See Coconut
Cocoyam, cohesiveness of 265
Cod liver oil, branched fatty acids of 207
Cohesiveness of pounded tropical staples 265
Collagenous films, ammonium content of 529
Colour of stored green beans 797
Conductance measurements on low a_w solutions 789
Cooling
  effect on lethality of heat treatment 411
  rabbit meat 481
Corn—See also Maize
Corn germ flour 35, 43
Corrosion, external, of cans 285
p-Cymene removal from lime oil 523

Dehydration—See also Drying
Dehydration of
  carrots 113
  papaya 667
  rice 345
Denaturation, thermal, of egg albumen 11
Diffusion coefficients for solute losses 427
Dioscorea—See Yam
Dissociation constant of sorbic acid 789

'East Malling 3022' apples, acceptability after processing 697
Egg albumen, heat denaturation of 11
Electroconductive thawing 171
Enterobacteriaceae in nitrite-containing vacuum-packed meats 371, 573
Euthynnus affinis—See Bonito
Evaporators, falling film, modelling of 539

Extraction of sunflower anthocyanins 629
Extrusion cooking of
  corn germ flour and milk protein 43
  defatted soy flour mixtures 719

F values, effect of cooling on determinations of 411
Falling film evaporators, modelling of 539
Fat measurement by NIR spectroscopy 651
Fatty acids, branched, of cod liver oil 207
Finger drop in bananas 241
Fish,
  dried salted, sorption isotherms of 739
  flesh, binding properties of 441
  marine, of Nigeria 271
  pâté, acceptability of 361
  products, texture of 85
  protein, effect of freezing on functional properties of 731
  white, acceptability of 75
Flavour development
  in protein hydrolysates 21
  of white fish 75
Flour from
  corn germ meal 35, 43
  soy beans 719, 771
Freeze-dried
  banana, hygroscopicity of 687
  papaya, carotenoids in 177
Froth flotation to extract protein 195
Frozen storage, effect on functional properties of protein 731
Frozen tuna, muscle colour deterioration in 387
Fruit, intermediate moisture products 667
Functional properties of
  blood plasma proteins 747
  protein, effects of freezing on 731

Gadus morhua—See Cod
Gamma terpinene removal from lime oil 523
Gari, effect of glutathione on 265
Gas chromatography, headspace, to determine sulphur dioxide 233
Glutathione, effect on cohesiveness of foods 265
Glycine max—See Soybean
Guava,
  heat treatment of 301
  pulp, heat transfer characteristics of 317

Headspace gas chromatography to determine sulphur dioxide 233
Heat denaturation of
  egg albumen 11
  thiamine in meat products 61
Heat transfer in canned guava pulp 317
Heat treatment,
  effect of irregular cooling on lethality of 411
  external corrosion of cans 285
  of guava 301, 317
Hygroscopicity of freeze-dried bananas 687

Infra-red reflectance spectroscopy of
  dry cake mixes 651
  flour 453
Instron to evaluate texture of fish products 85
Intermediate moisture tropical fruit products 667

Jam, made of prickly pear 183

Katsuwonus pelamis—See Skipjack tuna
Kinetics of heat degradation of thiamine 61
Kjeldahl digestion for
  ammonium content of collagenous films 529
  nitrogen determination 129

Lactic acid bacteria in nitrite-containing vacuum-packed meats 371, 573
Legume starch 1
Lethality of heat treatment, effect of irregular cooling on 411
Lime oil, concentration of 523
Lipase, effect on milk fat 495
Lipids of pistachio nuts 461
Lupin seeds, aqueous extraction of 327

Maize—See also Corn
Maize meal—effect of storage 53
Manihot esculenta—See Cassava
Mathematical modelling of
  falling film evaporators 539
  moisture transfer for pasta packages 587
  thiamine degradation 61
Meat,
  bacteria and diamine in 777
  from electrically stimulated carcasses 639
  heat degradation of thiamine in 61
  luncheon, amylolytic activity in 295

product, vacuum-packed, microflora of 371
protein, effect of freezing on functional properties 731
texture of 607
vacuum-packed, microflora of 573
Milk fat, effect of lipase and phospholipase C on 495
Milk, powdered,
cheese prepared from 711
water binding to 219
Modelling—See Mathematical modelling
Moisture
desorption isotherms of rice 345
in flour 453
transfer in packaged pasta 587
Multiple effect evaporators, modelling of 539
Muscle
colour deterioration in tuna 387
fibre orientation and tenderness 607
Mushroom compost, *Aspergillus flavus* and aflatoxins in 335
Mushrooms, *Pleurotus,* storage of 153
Mussels, protein extraction from 195

NIR spectroscopy of
dry cake mixes 651
flour 453
NMR
low resolution to determine oil in avocado 401
pulsed, to determine water 125
water binding in milk 219
Near infra-red reflectance spectroscopy of
dry cake mixes 651
flour 453
Nigerian marine fish and crustacea, composition of 271
Nitrite, effect of on microflora of vacuum-packed
Bologna 371
whole meat 573
Nitrogen determination by Kjeldahl digestion 129
Nuclear magnetic resonance
pulsed to determine water 125, 219
to determine oil content of avocado 401

Oil,
cod liver, branched fatty acids in 207
content of avocado 401
lime, concentration of 523
soy bean, quality 353

Opuntia ficus-indica—See Prickly Pear
Organoleptic assessment—See Sensory evaluation
Ottawa Texture Measurement System, measurement on
  extended soy flour mixture 719
  meat 607
Ovalbumin, heat denaturation of 11

Packaging films,
  permeability, effect on microflora of meat 573
  pro-oxidants in 251
Papaya,
  freeze-dried carotenoids in 177
  intermediate moisture products 667
Paracymene removal from lime oil 523
Pasta, packaged, moisture transfer in 587
Permeability of packaging films,
  to gas, effect on microflora of meat 573
  to water, effect on pasta 587
Phospholipase, effect on milk fat 495
Pigeon pea, starch of 1
Pistachio nuts, lipids of 461
pK_a or sorbic acid at low a_w 789
Pleurotus flabellatus, post harvest storage 153
Post-harvest storage of,
  bananas 241
  white oyster mushrooms 153
Prawns, Nigerian 271
Prickly pear jam 183
Pro-oxidant in packaging film 251
Protein in flour 453
Protein extraction from,
  mussels 195
  plasma, separation of 747
  functional properties of 731
Protein hydrolysate from coconut and soy bean 21, 163
Protein-lipid film from soya 619
Pseudomonas, lipase of 495
Psidium guajava—See Guava
Pulsed NMR to determine,
  bound and free water 125
  water binding in powdered milk 219
Putrescine in meat 777

Rabbit meat, effect of post-slaughter cooling 481
Refining of soy bean oil, effect on quality 353

Rice, rough, sorption isotherms of 345
Roasting of,
  pistachio, effect on lipids 461
  semolina, effects of 469

Salted fish, sorption isotherms of 739
Salting and roasting of pistachio, effect on lipids 461
Sampling by attributes and by variables 143
Semolina, effects of roasting 469
Sensory,
  attributes of white fish 75
  evaluation of
    apple juice drink 763
    apple slices 697
    full fat soy flour products 771
    protein hydrolysate 163
    stored soft drinks 227
  methods to evaluate texture of fish products 85
Shear force measurements on,
  fish 85
  meat 607, 639
Shrimps, marine, Nigerian 271
Skipjack tuna, muscle colour deterioration in 387
Soft drinks, sensory assessment of shelf life 227
Solute losses during blanching 427
Sorbic acid, dissociation at low a_w 789
Sorbitol as a sweetener for yoghurt 97
Sorption isotherms of,
  dried salt fish 739
  freeze-dried bananas 637
  pasta 587
  rice 345
Soy bean,
  flour products 719, 771
  oil, quality of 353
  protein hydrolysate 21, 163
  protein-lipid film 619
  thin-layer air-drying of 507
Spectroscopy, NIR, of dry cake mixes 651
Starch,
  degradation in pasteurized meat products 295
  legume 1
Storage,
  effect on maize meal 53

post harvest of bananas 241
white oyster mushrooms 153
Sucrose measurement by NIR spectroscopy 651
Sulphur dioxide determination 233
Sunflower anthocyanins, extraction of 629
'Suntan' apples, processed, acceptability of 565, 697
Sweeteners for yoghurt 97
Synergistic effects of lipase and phospholipase 495

Tenderness of meat,
effect of electrical stimulation of carcasses 639
effect of fibre orientation on 607
γ-Terpinine removal from lime oil 523
Texture of,
fish products 85
extruded soy flour mixtures 719
Thawing by electroconductive heating 171
Thermal denaturation—See Heat denaturation
Thermal processing—See Heat treatment
Thiamine content in heated meat products 61
Thunnus albacares—See Tuna
Tortilla, quality of maize meal for 53
Tuna, muscle colour deterioration in 387

Vacuum-packed
Bologna sausage, microflora of 371
whole meat, microflora of 573
Viable counts, estimation of 801

Water
activity and drying of rice 345
vapour transfer in packaged pasta 587
Water, bound and free, determination of 125

Xanthosoma sagittifolium—See Cocoyam
Xenomugil thoburni 789
Xylitol as a sweetener for yoghurt 97

Yoghurt, sweeteners for 97
